## Wave Upon Wave

Can you feel it? There is a wave moving in this country. If we allow our minds to dwell on it, it can be depressing and downright scary. I am talking about the wave that is widening the path for abortion. The current administration is the most pro-abortion administration in the history of this country. While they have been clear in their stance, they have been somewhat hesitant to admit that they favor abortion up to the baby's due date. Why? Because that admission is unthinkable to the great majority of this country, and they know it.

As a result of this unfortunate wave, there has never been a greater need for Eden Clinic and others like us. In Tulsa, Planned Parenthood was just given the green light to provide abortions which brings our state's number of abortion clinics to five. Now is the time for action!

Yes, there is a wave that is moving, but the good news is that there is an even greater wave that is also moving, and this one is a tsunami! God is moving in mighty ways in this country, in our state, and at the

Eden Clinic. He is not surprised at the current administration, and He is bigger than anything they can bring. As they attempt to build support for abortion, the truth about abortion will be revealed. The grim reality of abortion will cause some pro-choice supporters to question the lie they have been told and understand the truth about abortion.

Minds are being changed in the women who are carrying their babies to term and minds are being changed in the people of this country. State lawmakers are taking the stand to ban abortion altogether or to at least limit it in some way. We want abortion to become a topic of conversation, and the current administration is blazing the trail for us.

At Eden, our abortion minded calls are increasing and God is giving us a growing opportunity to have a conversation with abortion-minded women about the truth of their options. Those of you who receive our "FIGHT FOR LIFE" texts have noticed the increase. God is indeed at work at the Eden Clinic.

The chorus of one of my husband's favorite songs, "Wave on Wave" by Pat Green, says:

*You came upon me, wave on wave.  
You're the reason I'm still here.  
Am I the one you were sent to save?  
You came upon me, wave on wave.*

Now read those lyrics one more time from the perspective of an unborn baby we are working to save. There is power in that wave!

At our staff retreat in January, we determined our areas of focus for the next few years. God was in that process and has already begun to provide the people and resources we need. In fact, I am finding it hard to keep up with God! What a wonderful blessing it is to know that the God of the tsunami is with us and for us. Nothing can stand against us, even when that smaller wave seems to gain momentum at times.

So thank you for your support whether through your time, your finances, or through your prayers. God is using each of you to fulfill the mission of Eden Clinic...saving babies from abortion, and women from a lifetime of regret.
